

## ScreenBeam™ USB Transmitter 2

Catalog# SBWD200TX02

This installation guide provides instructions on how to set up and pair your ScreenBeam USB Transmitter 2 to a ScreenBeam wireless display receiver. This will enable users to wirelessly display content from a PC or laptop to a monitor or projector.

**Note:** ScreenBeam wireless display receiver is not included. Visit [www.screenbeam.com](http://www.screenbeam.com) for more information.

### A. Install the Application Software

- 1 Download ScreenBeam wireless display software to your PC or laptop from [www.actiontec.com/products/sbupdate.php](http://www.actiontec.com/products/sbupdate.php).
- 2 Click **ScreenBeam\_Setup.exe** and follow the onscreen instructions.

**Note:** The software supports silent install/uninstall mode to run the setup.exe from the command line.

- Install command line:  
ScreenBeam\_Setup.exe -sp"-s"
- Uninstall command line:  
ScreenBeam\_Setup.exe -sp"-s -x -v"/qn" "

### B. Set up the ScreenBeam Receiver

- 1 Place the receiver next to the monitor or projector.
- 2 Using an HDMI cable, connect one end to the receiver's HDMI port and the other end to the HDMI port on the monitor or projector.

- 3 Connect the power port to the receiver and plug it in.
- 4 Turn on the monitor or projector and select an HDMI input.
- 5 Wait about 30 seconds, then verify that the monitor or projector displays a **Ready to Connect** screen.

## C. Pair the Transmitter and Receiver

- 1 Plug the USB Transmitter 2 into a USB port on your PC or laptop.
- 2 Launch the ScreenBeam wireless display software by clicking the icon on the Windows desktop.
- 3 Click **Add a Receiver** on the control panel of the software, and find your receiver name. This is the same name that appears on the **Ready to Connect** screen on the monitor or projector.
- 4 A PIN appears on the screen.
- 5 Enter the PIN in the software, and click **Next** to pair your transmitter and receiver.
