

MYWIRELESSTV 2 WIRELESS HD DISPLAY KIT

“Cut the cord: Enjoy brilliant HD without the wires”

Actiontec[®]

Actiontec Electronics, Inc.

- Over 30 million broadband devices sold
- Develops products for the largest broadband providers in North America
- Awarded over 75 major industry awards in the last two years

Product Messaging

Today’s customers want the ability to mount an HDTV anywhere without a messy clutter of cables. MyWirelessTV 2 replaces cumbersome HDMI cables with wireless technology, so users can connect HDTVs and displays throughout their home or business without having to invest in an expensive installation project.

Compatibility

- Works with most cable, satellite, Blu-ray, set top boxes, and other media devices with an HDMI output
- Works with TVs and projectors with an HDMI input
- Operates on standard 802.11 5GHz wireless
- Supports protected content such as Blu-ray and DRM

HDTV WITHOUT THE WIRES: INSTALL HDTVS WHEREVER YOU WANT

Key Selling Points

Eliminate cable clutter

With MyWirelessTV 2, you can easily install an HDTV anywhere you want (above the fireplace, on the bedroom wall, temporarily out on the patio) without having to dangle ugly HDMI cables.

Perfect at home and in the office

MyWirelessTV 2 eliminates clutter and allows for easy installation of displays in numerous environments.

Use existing remote control

Unique pass-through Infrared lets you use a device’s remote control from any room.

Key Selling Points

Up to 1080p60 HD Video

All the highest HD videos and audio standards are supported (1080p and super low latency technology), so you can go wireless without having to worry about picture and sound quality.

Easy to use

Get up and running in minutes with a true plug-and-play experience.

Compact and cost-effective

Each MyWirelessTV 2 kit comes with a compact, low profile transmitter and receiver. Everything you need is included in the box, including the HDMI cable.

| Customer Consideration | Feature | Advantage | Benefit to the Customer |
|------------------------|---|---|--|
| Plug and Play | Auto discovery and pairing | Easier to use than other solutions that require user to manually pair source and display. | “Get up and running in minutes with a true plug and play experience. Everything you need is included in the box, including the HDMI cable.” |
| AV Quality | Up to 1080p60 | Exceptional video and 5.1 surround sound support to fully take advantage of HD digital content. | “You can cut the HDMI cord without worrying about picture and sound quality. You won’t even know it’s wireless TV.” |
| Flexibility | No line of sight required; up to 100 feet away* | WiHD, WiGig, and WHDI operate within shorter distances and require direct line of sight | “You have more flexibility on where to mount HDTVs. For example, the set top box in the living room can wirelessly connect to the TV upstairs in the bedroom.” |

Units can operate up to 100’ range apart ideally in a home environment through 2-3 walls or floors that are not constructed in non-porous materials (e.g. brick, plaster, cement, metal, stone, or double-glazed glass).

What’s new in MyWirelessTV second generation?

As the second generation of Actiontec’s award-winning MyWirelessTV platform, MWTV 2 features key enhancements:

- **Lower cost:** By eliminating the mini remote control and USB-OTG, MyWirelessTV 2 has a lower price point.
- **Lower profile and thinner** than first generation: less obtrusive fit in the home theater
- **Easier configuration:** Wi-Fi channel is automatically selected to find the cleanest one; controlled by push buttons
- **No multi-source:** Due to lack of market interest, MWTV2 no longer supports multiple transmitters to one receiver.
