

MODEL NUMBER

# ECB6250

## MoCA 2.5 Network Adapter with 1 Gbps Ethernet

Get ready to take your home network to the next level. The ECB6250 Network Adapter leverages the latest MoCA 2.5 technology to deliver blazing fast speeds up to 1 Gbps to your home theater, living room, or wherever else you need a bandwidth boost. Say good-bye to buffering, lags, and other streaming and video quality problems. With the ECB6250, you get a high-performance Gigabit WiFi network with the convenience of WiFi throughout the home and wired Gigabit, even two Gigabit, speeds where you need them.

### Want Better WiFi? Add Wires

MoCA technology turns your home's existing coaxial wires into a high-speed Gigabit "Autobahn" that runs throughout your home. Wherever you have a coaxial port, you can get high speed Internet access...perfect for faster file transfers, lag-free gaming and pristine 4k and HD streaming. This means you can enjoy consistent Gigabit Ethernet performance in the home theater, even the basement, without having to install Ethernet cables or struggle with wireless dead zones or spotty signal strength.

### A Better Experience with MoCA Protected Setup

The ECB6250 supports new MoCA Protected Setup (MPS) technology to make it even easier to add and set up new adapters.

### Key Features

- Enhance the home's Wi-Fi network with wired speeds and reliability
- MoCA Network speeds up to 2.5 Gbps, 1 Gbps to end point devices
- Works over home's existing coaxial wiring
- MoCA Protected Setup (MPS) for easier set up
- MoCA 2.5 with backward compatibility to MoCA 2.0
- Won't interfere with cable TV services

### Install in Seconds

The ECB6250 MoCA 2.5 Network Adapter works over the home's existing coaxial wiring. Simply plug one MoCA adapter into your router and another to the HDTV, set top box or other device. Most do-it-yourself consumers can complete the installation in less than 5 minutes and installation professionals no longer need to pull cables throughout the house. You'll be enjoying a superior streaming, gaming and networking experience in no time

### Next Generation MoCA 2.5

With support for the latest MoCA 2.5 technology, the ECB6250 offers MoCA network throughput speeds up to 2.5 Gbps across the MoCA network - that is more than two and half times the speed of MoCA 2.0, allowing you to enjoy up to 1 Gbps at multiple end points. You'll get more than enough bandwidth for HD video, online gaming, and other demanding applications. Join the millions of homes in North America that are taking their HD video streaming and online gaming to the next level with an Actiontec MoCA solution.
