

# ScreenBeam Signage Player

## Purpose-Built Digital Signage Hardware

### Powered by ScreenBeam Administrative Tools — 3 Years Included

• Signage+ • Message Manager • Alert+

The ScreenBeam Signage Player is a dedicated digital signage endpoint that gives IT teams complete control over every display in their organization — from a single cloud console, with three years of Administrative Tools included.

Designed for enterprise and education environments, the Signage Player connects to ScreenBeam Administrative Tools — a cloud platform covering digital signage, routine messaging, and emergency alerting, all managed from one place. Every device includes 3 years of Signage+, Message Manager, and Alert+ at no additional cost. Deploy across one location or hundreds. Manage everything remotely.
