

# ScreenBeam 1000 EDU

## Enhanced wireless display and collaboration for classrooms

ScreenBeam delivers app-free screen sharing on any device eliminating the need to download an app or keep a cable or dongle nearby. Simply tap to wirelessly connect a mobile device to the room display. Teacher and guest devices have multiple ways to connect including local Wi-Fi mode, Miracast™ and network infrastructure connectivity.

Teachers can display up to four student screens simultaneously, and with a Windows 10 device can ink and annotate in Office 365 apps and share notes to student devices or the front-of-room display.

ScreenBeam Ghost Inking™ removes all wireless inking latency for a more intuitive and natural pen-to-paper experience and a best-in-class wireless collaboration experience.

Includes the enhanced ScreenBeam Classroom Commander experience, providing both wireless display and student device orchestration for Windows 10 or Chromebook student devices with zero ongoing licensing fees or subscription costs. ScreenBeam 1000 EDU delivers an affordable, easy teacher and student experience, with advanced technology to provide simplicity and scalability for deployment and management.
